RESEARCH AND DEVELOPMENT CONTRACT SEARCH FILE (1K) 11/24/92

DEFINITION

The cataloging and indexing staff is responsible for maintaining the Research and Development Contract Search (R&DCS) file. The R&DCS file consists of research and development (R&D) contracts subject to update as information is received (contract modifications). The contracts and contract modifications are received on a weekly basis from NASA. The file is updated monthly. The update involves the addition of new contracts to the database and a review of all modifications for changes in the statement of work which would require deletions and/or additions to the existing record. The R&DCS file contains bibliographic citations including data elements; descriptive title, corporate author, contract number, sponsoring NASA center, principal investigator(s), NASA technical monitor, starting date and completion date of the contract and in-depth subject index terms selected from the NASA Thesaurus to describe major areas of research. Note: This file was formerly named the Contract Data File (CDF).

Criteria that determine eligibility for selection of contracts into the R/DCS file include:

1. Scope: Research and development
2. Total dollar value: $10,000 or more
3. Completion date: No earlier than two years prior to receipt

SIGNING ON/OFF THE INPUT SYSTEM: IPS-ALT

I. Signon to TELEVIEW

A. Switch the terminal on, the CASI Signon Screen should appear. If not, press <CLEAR>, type "teleview", press <ENTER>. At the CASI Signon Screen:
   1) Type your userid then press <RETURN>. Go to step 2 OR 3.
   2) At this point the password may be changed for CASI's environments. Once changed, it can't be changed again for 5 days. To change your password:
      a) Type your old password then press <RETURN>. (The password will not display on the screen.)
      b) Type your new password, press <RETURN>.
      c) Type your new password (to verify), press <ENTER>. The message that your "PASSWORD SUCCESSFULLY ALTERED" will flash on the screen and then the TELEVIEW Selection Screen.
   3) Type your password then press <ENTER>. (The password will not display on the screen.) The result is the TELEVIEW Selection Screen.

II. Signon to IPS-ALT through NATURAL

A. At the TELEVIEW Selection Screen, type "3" then press <ENTER>. This results in the message "MESSAGE BROADCAST DATA SET EMPTY; SIGNON SUCCESSFULLY COMPLETED." Press <CLEAR>. (Note that on some keyboards you must press <CLEAR> and <ALT> simultaneously.)

B. On the clear screen type "nat2 sys=prodlow" then press <ENTER>. You will be presented with the NATURAL SECURITY SYSTEM screen.
   1) Application ID: Type "ips-alt" press <RIGHTTAB>.
   2) User ID: Enter your user id, then press <RIGHTTAB>.
   3) Password. At this point the password may be changed for NATURAL's applications. Go to steps a OR b.
      a) To change your password:
         i) Type your old password then press <RIGHTTAB>. (The password will not display on the screen.)
         ii) Type your new password, press <ENTER>. The resulting instruction is "RE-ENTER NEW PASSWORD TO CONFIRM PASSWORD CHANGE."
         iii) Type your new password (to verify), press <ENTER>. Successful completion of this sequence is the IPS ALT Selection Screen.
      b) Type your password then press <ENTER>. (The password will not display on the screen.) The result is the IPS ALT Selection Screen.
   4) To begin cataloging R/DCS documents, enter "1" as the Function selection and "2" as the File selection and then press <ENTER>. The Cataloging R/DCS Screen will appear.
   5) As you finish entering the cataloging data for each contract, press the <PF12> key to store the data and cause the system to assign the IPS-ALT temporary number. Write this temporary number on the document itself. Press the <ENTER> key to return to the Cataloging R/DCS Screen to process the next document. If there are no more documents to catalog, press the <PF3> key to return to the IPS-ALT Selection Screen.

III. Signoff TELEVIEW

A. After you have verified that your work is completed, press <ATTN> then press <ENTER>.

B. At the TELEVIEW Selection Screen, type "logoff all" then press <ENTER>.

C. At the CASI Signon Screen, switch the terminal off.

IV. Toggle Between Applications

A. If you are signed on to 2 or more system applications, it is possible to 'toggle' or switch back and forth between applications. To do so press the <PA1> key. Note that on some keyboards you must press <ALT> and <PA1> simultaneously. Be sure you have saved or stored any work before leaving an application.

DUPE CHECKING

?

ACCESSIONING

The contract has an IPS-ALT temporary number generated by the system once it has been stored after cataloging. This IPS-ALT number identifies the contract while it remains in the IPS-ALT input system. Once the contract is accessioned, this number as an identifier for the contract is dropped. Accession Numbers are assigned by the system in sequential order based on the IPS-ALT number.

CATALOGING

Document Number

A unique number is assigned to each contract for purposes of tracking during the processing cycle after the document has been cataloged via the IPS-ALT input system. Be sure to write this temporary number on the document itself.

Sponsoring NASA Center

The corporate source code of the sponsoring NASA center is entered. This is a mandatory field.

NASA Contractor

The corporate source code of the performing organization is entered. In those instances where the contract was awarded to the Small Business Administration, first enter the code of the subcontractor, then the contractor's (SBA's) code. This is a mandatory field.

Title

Follow standard cataloging guidelines for entering titles. If the contract, grant or order in hand has never been cataloged, but has already undergone a modification, supplement, or amendment, use the most recent meaningful title if different from the original. This is a mandatory field.

Contract/Grant/Order

Contrary to regular cataloging rules, the alpha characters are capitalized (for sorting purposes.) This is a mandatory field. The number uniquely identifies the research sponsored by NASA. Prefixes denote type as follows:

1. Grants: NAG, NAGw, NGF, NGL, NGR, NsG
2. Contracts: DEN, NAS, NASr, NASw, NSR, NCC, NCCw, NCA
3. NASA Order Numbers **

** Order numbers, usually prefixed with R or W, are a transfer of funds between government agencies.

Example: NASA Order W-13365 is entered as
NASA ORDER W-13365

MOD

This is mandatory field contains the modification, supplement or amendment number. Contracts are modified; grants are supplemented; orders are amended. If a number can be picked up during inital cataloging, the prefix is all capitalized. If necessary, use lead zeros. The format is 3 alphas dash 3 numerics (or 2 numerics 1 alpha).

Example: MOD-003 AMD-001 SUP-010 MOD-02A

When a modification is received at a later date, the prefix is initial capitalized. This informs the user that the contract has been revised since its initial inclusion in the R&DCS file.

Example: Mod-004 Amd-002 Sup-011 Mod-02B

Starting Date

Enter the starting date of the contract in YYYYMMDD format. This is a mandatory field. The contract might also refer to this as the effective date and be cited under "PERIOD OF PERFORMANCE."

Termination Date

Enter the termination date of the contract in YYYYMMDD format. This is a mandatory field. The contract usually cites this date under "PERIOD OF PERFORMANCE." If a time range is given instead of a specific date, always subtract one day. For example, if the termination date is defined as 36 months after the effective date of November 15, 1992, "19951114" (November 14, 1995) is entered.

Listing

This is a mandatory field. Indicate N for contracts; this is the default value. Indicate Y for listings. This value will generate "Incomplete processing" in the Miscellaneous Note Field.

NASA Technical Monitor

This is the NASA individual responsible for monitoring the research. Check for the technical monitor's complete initials. Enter the last name and initials only.

Example: KADZIEL-UBER, M. E.

If a monitor is not cited or has not been assigned: Use the name of the Project Engineer, but only if the issuing NASA office reports no monitor has been assigned. If the name is not available, note this in the Miscellaneous Note Field.

Related fields: Address of Technical Monitor and NASA Sponsoring Office

Address of Technical Monitor

Look in the telephone directory of the monitoring NASA center for the technical monitor's mail code.

Example: 821.1
ES24

Principal Investigator

The name(s) of the principal investigator(s) are usually designated. However, if the designation is not given, enter the name(s) listed "Under the direction of..." or under "Key Personnel and Facilities." Enter the last name and initials as is done in the Technical Monitor Field. Up to ten investigators are entered.

Example: ALLIS, K. M. D.
BOREK, B. G.
STACK, J. M.

RTOP Number

Also known as the SRT code, this is an agency-wide funding code appears on many of the contracts and grants. The code can consist of up to 15 characters: 3 numbers dash 2 numbers dash 2 numbers dash 2 numbers dash 2 numbers.

Example: 395-36-01-55-10
204-11

Miscellaneous Note

This field contains miscellaneous information explaining changes in contract numbers, or any other notes relevent to the record.

Example: Continuation of NASw-4385

For CONTRACT LISTs or an INTERAGENCY POWER GROUP PROJECT BRIEF, enter:

Incomplete processing

If a NASA technical monitor has not been assigned or cited, note this fact:

Tech. monitor not available

Separate one note from another with two spaces (CAPS codes are not used.)

Example: Incomplete processing Tech. monitor not available

MSDS SYSTEM INFORMATION AND ACCESS REQUIREMENTS

The KSC MSDS (Material Safety Data Sheet) System has been developed by EG&G Florida, Inc., the Base Operations Contractor, and is being made available for use by Kennedy Space Center (KSC) and CCAFS (Cape Canaveral Air Force Station) personnel. This system is a database of MSDS's acquired from manufacturers, distributors, vendors, and KSC organizations, for products used and stored at KSC and CCAFS. Access to the system is via KSC computer networks. At a future date MSDS requests may be made via touchtone phone for transmittal to a local facsimile machine.

The accompanying report, GP23-1, "Biomedical Operations and Research Office, Toxic Substances Registry System Index of Material Safety Data Sheets", will provide a listing of the MSDS's in the MSDS System.

For view-only access to the MSDS System of KSC Material Safety Data Sheets on the EG&G Local Area Network, the following computer equipment is needed:

Computer Equipment:
- 386/33 Mhz computer w/4Mb RAM
- VGA monitor (oversized monitor recommended)
- MS DOS 5
- Windows 3.1
- Mouse/drivers
- Novell network software
- Network cable to local network

Connection to one of the following via local network:
- KDN (Kennedy Data Network)
- SODN (Shuttle Operations Data Network)
- PON (Payload Operations Network)

Access Request (mail to TSRS, BOC-022):
- MSDS Node Information data sheet (copy and sample attached)
- KSC Form 28-269, Request for BOC Computer Access (sample attached*)
- KSC Form 28-399 NS, Computer User Responsibilities Acknowledgement (sample attached)

For additional information on the MSDS System or requirements for update access to the system, contact TSRS personnel at 867-9015.

* The sample access request form also requests access to HMIS, the Department of Defense, Defense Logistics Agency (DoD DLA) Hazardous Materials Information System of MSDS's. You may omit this option if you do not require access to the HMIS database.

Subject: COMPUTER USER RESPONSIBILITIES ACKNOWLEDGMENT

As a computer user at Kennedy Space Center, I hereby acknowledge and understand that use of any BOC *supported* computer carries with it the following responsibilities:

1. A USERID will be assigned for my use, ONLY to accomplish assigned work task(s) and I will notify Security Administration upon transfer or termination.

2. I am responsible for protecting my PASSWORD for my USERID, to prevent unauthorized use. My PASSWORD must be changed immediately after initial issue and at least every 90 days thereafter. My PASSWORD will be the full length allowed (8 characters), and will not be a value which somebody familiar with me could easily guess to gain unauthorized access; (i.e. my name, children's name, phone number, etc).

3. I will notify Security Administration immediately if I suspect unauthorized user of my USERID and PASSWORD.

4. I understand that use of another person's USERID and PASSWORD is a security violation and may result in loss of computer privileges and/or possible disciplinary action.

5. I understand that knowingly allowing another person to use my USERID and PASSWORD is also a security violation, with the same consequences as using another's USERID and PASSWORD.

6. I will ONLY make use of a BOC *supported* computer for valid purposes associated with the performance of my job, and understand that use of a BOC computer for unauthorized or private purposes is misappropriation of government property and may result in disciplinary action and possible legal actions against me.
